THE NEW ORDINANCE CONCERNING THE FIRE DEPARTMENT .- The Committee on the Fire Department met yesterday afternoon, and resolved to call up from the table at the meeting of the Council on Monday afternoon the proposed ordinance making some important changes in the Fire Department. It will be remembered that the ordinance has been printed and discussed in the Council, and was laid on the table before the summer recess for future consideration.

The first section provides that all the duties and powers imposed upon the department or any officer shall be under the supervision of the Committee on the Fire Department. The engines, engine-houses, apparatus, and other property connected with the department shall also be under the supervision and control of the Committee on the Fire Department.

Section 2 of the ordinances provides that the department shall consist of a chief engineer and two assistant chief engineers; one commander and eight firemen to each company, one engine-man, one helper, and one hostler to each steam fire-engine, and one hostler and one tiller-man to each book-andladder truck. The chief engineer shall be appointed by the City Council biennially in the month of July. This section reduces the number of men, provides for the ap- carnest and zealous laborers in the vineyard pointment of two assistants to the chief engineer, who will consult and advise with him when necessary. One of these officers will reside in one end of the city and the other in the other end. By the reduction three men will be kept in the engine-house all the time and relieved regularly.

The committee is empowered by the third section of the ordinance to appoint two assistant chief engineers and one commander for each company. In the sixth section it is provided that the

chief engineer, under the control of the committee, shall assign a commander and eight men to each company, and assign each company to duty at one of the engine-houses provided by the Council. He shall supply each company with the necessary engine, hose, and apparatus, and see that they are kept in proper repair, prescribe a uniform for officers and men, and make all needfu rules and regulations for the government of the department, and establish a system of fire-alarms, to be observed by all members of the police corps.

Some steps will probably be taken on Monday afternoon looking to the equipment of the new company.

CHOKED BY A CRACKER - A well-known topacconist, while taking lunch in Westerhoff's saloon yesterday, got a cracker about as big as a twenty-five-cent silver piece wedged in his throat. GREAT COUNCIL OF THE UNITED STATES.

FOURTH DAY'S SESSION.

The Council-fire was rekindled in due form at 9 A. M., George W. Lindsay, Great Incohonee, presiding.

THE SQUAW QUESTION. The Great Council resumed the consideration of the report of the Committee on Ritual for Squaws, when Past Great Incohone Riely, of Virginia, appealed from the decision of the Great Incohonce that the Great Council can adopt the Ritual for Squaws. The Great Incohonee was sustained, and then the report of the committee was adopted, which was that they deem it inexpedient to grant the privilege.

A denial would have been vain, for Mr. Andrew Jinkins, the clerk of the Hustings Court, and as such the dispenser of marriage-licenses, and, consequently, much happiness and unbappiness, was present and testified that not long ago he issued the proper document to authorize one Angenetta Mitchell to be united in matrimony to Jerry, and the ceremony had taken place according to law. The accused, through his counsel, after a little preliminary skirmishing, admitted the two marriages, and it was explained that the first marriage took place before the fall of Richmond, when both parties were slaves, and that they lived together as man and wife some time after they became free. After awhile the fair Angenetta, like a bright star, came blizing across Jerry's pathway, and he shuffled off the old love and put on the new. Now, Jerry did not know that the Legislature of 1866-'67 had passed a law rendering legal and binding such marriages as his, and that in marrying Angenetta he was probably guilty of felony. THE WALNUT-GROVE CHURCH ENTERTAIN-MENT. - A very pleasant and enjoyable entertainment was given at Walnut-Grove Baptist church, in Hanover county, about eight miles from Richmond, night before last. It consisted of a concert, tableaux, charades, erc.; and wound up with a feast spread in the moonlight under the lofty old trees in Representative W. E. Granger presented the grove adjacent to the church. The proceeds of the concert will be devoted to repairing and enlarging the church, which is a framed structure, needing the care and attention of the good ladies of Hanover.

The entertainment, although gotten up by the combined efforts of the friends of the and Constitution was again taken up for con- church in the neighborhood and in this city, to make personal mention of those that took This subject has occupied considerable part in this happy little off ir, but it may be very truly said that, considering the hurry in which they could command in the church, they succeeded in getting up a most creditable performance. The singing, as well as the instrumental music, was excellent; and the whole affair proved so agreeable that it was kept up until long past midnight,

The citizens of Hanover are as hospitable as ever, and delight in showing their guests the bistoric ground around Mechanicsville. They tell how Colonel Withers was wounded a: Ellerson's mill, and relate a thousand other war incidents which they know by heart, because so much transpired around them. But we have digressed. The church was crowded, and a band-ome sum was realized, and an effort will be made to have the enterainment repeated.

KIDNEY COMPLAINT.

NO. 70.

FINED TWENTY-FIVE DOLLARS .- G. W. Mountcastle, charged with assaulting G. C. Vincent, has been tried in the Henrico County Court and fined \$25.

Probably there is no complaint that afflicts the human system which is so little understood at the present time as some of the varied forms of kidney complaints.

There is no disease which causes such acute pair or more alarming in its results than when the kidneys fall to secrete from the blood the uric acid and other poisonous substances which the blood accumulates in its circulation through the system.

If from any cause the kidneys fail to perform the functions devolving upon them the cumulations are taken up by the absorberts and the whole system thrown into a state of disease, causing great pain and suffering, and very often immediate death. Hence the importance of keeping the kidneys and blood in a healthy chadition, through which all the impurities of the body must pass. THE GRASS-WIDOWERS .- This afternoon the "G. I have faithfully tried most of the popular remedies recommended for my complaint; I have been under the treatment of some of the most skilful physicians in Boston, all of whom pronounced my case incurable. This was my condition when I was advised by a friend to try the V*GETINE, and I could see the good effects from the first dose I took, and from that moment I kept on improving until I was entirely cured, taking in all, I should think, about six bottles.

It is indeed a valuable medicine, and if I should be afflicted again in the same way I would give a dollar for a dose, if I could not get it without.

Respectfully,

NEARLY BLIND.

H. R. Sievens,—Dear fir: In expressing my thanks to you for benefits derived from the use of VEGETINE, and to benefit others, I will state: When eight or nine ye-rs old I was affileted with ser fale, which made its appearance: in my eyes, face, and head, and I was very near blind for two years. All kinds of operations were performed on my eyes, and all to no good result. Flually the disease principally settled in my body, limbs, and feet, and at times in an aggravated way.

Last summer I was, from some cause, weak in my spline and k1/neys, and it was at times very nard to retain the urine. Seeleg your advert senent in the commenced using according to directions. In two or three days I obtained great relief. After using four or five bottles I noticed It had a wonderful effect on the rough, scaly blotches on my body and legs. I still used VEGETINE, and the humorous serves one after another disappeared until they were all gone, and I attribute the eare of the two diseases to VLGETINE and nothing else.

If I am ever affected with aaything of the kind again I shall try VEGETINE as the only reliable remedy. Once moreaceept my thanks, and believe me to be, very respectfully,
